

Mastery Charter Schools
Excellence. No Excuses.

**NOW ENROLLING
 7TH AND 9TH GRADES
 FOR FALL 2010**

Why Choose a Mastery Charter School?

- **College Preparatory.** 100% of our graduates attend college; last year's graduates received \$1.7 million in scholarships. We believe every student can achieve at the highest level. Students must obtain "Mastery" (76% or higher) in all courses. AP courses are available beginning in 10th grade.
- **Small School with Personalized Support.** With an average of 25 students per class, everyone is known by name. Students who need extra help attend after-school small group tutoring or homework club.
- **Internships.** Each student does an 18 week internship at a local business or non-profit in their junior year. Seminars on decision making, resume writing and college life prepare students for the real world.
- **Music, Art, Technology, Sports.** Learn how to play keyboards in Music class, paint in Art class, make a webpage in Technology class or work-out in our fitness room in PE class. After school, choose from a wide variety of extra-curricular activities including basketball, dance, track, chess, debate and much more.
- **Beautiful, Award-Winning Facilities.** All of our schools are newly renovated, air conditioned and equipped with multiple computer labs.
- **A Safe, Friendly Community.** Mastery is a positive, supportive environment. All students sign a non-violence contract and follow a strict code of conduct.

MISSION All students learn the academic and personal skills they need to succeed in higher education, compete in the global economy and pursue their dreams.

Mastery Charter Schools
operates four nationally
recognized middle/high
schools serving 7th
through 12th grades.

Enroll Now. Space is Limited.

Information sessions are held for parents and prospective students that provide the opportunity for you to learn about Mastery's college preparatory curriculum and high standards for all students. The dates, time and locations of the upcoming session are available by calling the school. Mastery Charter Schools are public schools, operating under the same regulations that govern all schools within the public school system. In alignment with this, Mastery does not screen students based on academic or any other factor. All students are welcome. Existing regulations regarding Charter School enrollment limit our available seats, so students are selected by lottery. Those applications that exceed our approved capacity are placed on a waiting list.

Call today to learn more about the Mastery school in your neighborhood and to sign up for an information session! Contact information for each school is listed below.
